Skills

- React
- Javascript
- TypeScript
- Redux
- RTK Query
- CSS
- SASS
- NPM
- GIT
- RWD
- Node.js
- jQuery
- Linux
- Cypress

Skilled software development professional with over 4 years in web development.

What are my current activities? Rewriting old applications to use React with TypeScript. Unit and Integration tests done with Jest and React Testing Library, E2E in cypress.

Collaborating with team members to produce better and cleaner code. Meetings with Software Architects and Designers.

My current stack is React with TypeScript, combined with GIT, Jenkins, Gerrit. Redux for state management and RTK Query for api calls.

Work History

2022-01 - 2024-05

Software Developer

Nokia Solutions and Networks sp. z o.o., Wroclaw

- Discussing problems with team members to find a solution and apply the best solutions, practices
- Participating in software testing to verify performance of developed projects
- Designing reusable and reliable code
- Updating customer documentation

2020-04 - 2021-12

Frontend Developer

Telewizja Puls sp z.o.o, Warsaw

Creating content and adjusting it to designes (PSD files), work with content (provided by Marketing team) in Drupal CMS and applying them in websites belonging to Telewizja Puls.
Responsibility for the frontend layer and adjusting it with mobile first rule.

2011-06 - 2020-03

DP Executive / DP Senior Executive

Kantar Poland, Warsaw

Creating online surveys based on HTML / CSS / JS technologies. Creating survey support
tools:
• concept select (choosing words that match or do not match the given product, ads -
created in jQuery)
• out of 10 (a tool to compare the last 10 product purchases - created in jQuery)
• development and implementation of a new online survey appearance (layout)
consistent with the new logo for the entire branch in Poland
In my everyday projects I use the skills acquired at the Coders Lab school, which allows me
to create projects that meet the expectations of our clients, based on HTML / CSS / JS /
jQuery.
